

GreenS Cyprus 3rd Roundtable - Steering Committee meeting

Limassol, 31/10/2017

Participants

Natalia Georgiou	Department of Environment
Maria Georgiou	Treasury of Cyprus
Savvas Vlachos	Cyprus Energy Agency
Harris Kordatos	Cyprus Energy Agency
Marios Petrakkas	Cyprus Energy Agency
Representatives from Public and Local Authorities	

On 31 October 2017, the 3rd Roundtable meeting was organised together with the training session in Limassol. The roundtable session was also supported by the Limassol Municipality.

Before the roundtable session, a complete introduction on the GPP field was presented to the participants:

- Introduction to GreenS
- Introduction to GPP; what is GPP, main barriers and advantages, what is the status in Europe and in Cyprus
- GPP implementation in Cyprus
- Introduction to the Legal framework, national and European

Also, the specific energy categories of products were presented under the training session:

- Indoor and outdoor lighting. GPP criteria, good practices, exercise and discussion
- Office equipment IT and imaging. GPP criteria, good practices, exercise and discussion
- Vehicles. GPP criteria, good practices, exercise and discussion
- Heating and Cooling. GPP criteria, good practices, exercise and discussion

The participants took the full picture of the GPP situation in Cyprus and the respective legislation. The topic of the roundtable session was the upgrade of the street lighting in the Local Authorities of Cyprus and more specifically the upgrade of the street lighting in the municipalities of Limassol.

The procedures and GPP support, led technology, experience and capacity of municipalities to procure GPP, other barriers to implement successfully a street lighting GPP, were discussed extensively by the steering committee and participants.
