## GREEN PUBLIC PROCUREMENT SUPPORTERS FOR INNOVATIVE AND SUSTAINABLE INSTITUTIONAL CHANGE

[www.greensproject.eu](http://www.greensproject.eu)

This project is funded by the Horizon 2020 Framework Programme of the European Union under Grant Agreement N°649860

## GreenS ambition

14 partners from 8 EU countries are addressing the significant problems faced by public authorities in relation to implementing green public procurement. In the GreenS project we have decided to examine, consider and together with you to create recommendations for changes in the green public procurement (GPP) practices and to incorporate the GPP possibilities in the long term public policies, such as Sustainable Energy Action Plans (SEAPs).

Good and bad practices on GPP assessment

GPP Institutionalization

Pilot Projects on GPP

Evaluation of results and recommendations

Communication and dissemination of results

GPP training

GPP Supporting Units

## GreenS cares about

the environment

the expenses

### GPP will reveal the benefits of GPPs:

Climate protection— achieving the EU 2020 targets

Economical—saving resources

Political—commitment of the public sector to sustainable consumption and improved life quality

Innovative—considering the life cycle cost

## GreenS Objectives

To strengthen capacity of public authorities to successfully apply GPP with priority

To make GPP practices a common standard among public administrations

To contribute overcoming the obstacles and barriers to GPP

To provide dialogue and suggestions to the political decision making process, legal and operational guidance

To boost the process of setting common GPP criteria, tools and procedures in the EU

## How shall we do this

GreenS partners will provide expertise to you by:

**7 Green Public Procurement Supporting Structures (G.P.P.S.)** offering technical support to public authorities

**6 one-day training courses** in each partner country free of charge

**Implementation of 21 green processes** on existing and new GPP categories

**7 Steering Committees** ensuring multilevel cooperation

**Analyzing 105 SEAPs** with respect to GPP

**Collecting 80 good and bad practices** with identified needs for GPP across EU

More information, contact details, training materials and further actions you will find on
